Document: Parent Code of Conduct – Version 5 ADM10	Policy Owner: Principal Author: Risk & Compliance Manager
Next Review Date: 01 September 2030	Page 1 of 10

Introduction

At St Michael's Collegiate, we believe that learning flourishes in a community built on respect, care and shared responsibility. Our Parent Code of Conduct has been developed to promote a safe, supportive and inclusive environment for all members of our School community.

Guided by our values of **Courage, Integrity and Compassion**, this Code affirms the importance of positive relationships between families, staff and students. Parents and carers play a vital role in modelling these values and supporting their child's education. Similarly, we cannot provide the best education for a child, or equip them with the skills required for a fulfilling adult life, without the cooperation and support of their family.

To ensure such cooperation, this Code of Conduct outlines the School's expectations for parents, step-parents, guardians, grandparents, extended family members and carers (collectively, *Parents*). It should be read alongside the School's [Safeguarding Children Policy](#) and [Safeguarding Practices and Behaviour Guidelines and Procedures](#), and understood in the spirit of cooperation that underpins our educational mission.

In developing this Code, the School recognises that Parents ultimately want the best for their children. At the same time, the School must balance the interests of all members of the community — including students, Parents, and staff, who have the right to a safe and respectful working environment.

This Code is not intended to provide an exhaustive list of expectations. Rather, it sets out general principles of respectful and safe conduct. It is intended to be practical, constructive and accessible.

St Michael's Collegiate also affirms its commitment to the **Child and Youth Safe Standards**, including providing culturally safe environments for Aboriginal and Torres Strait Islander students and families, and ensuring that the voices of children and young people are heard in decisions that affect them.

St Michael's Collegiate School is a learning community based on the Christian faith that values its people, its place and its potential.

Our Vision: To empower every student to embrace the fullness of life.

Our Purpose: To learn bravely, together.

Our Values: Courage, Integrity and Compassion.

Our Motto: Beati Mundo Corde from Matthew 5:8-10 translates as 'blessed (are those) with a pure heart'.

Key Expectations of Parents

The five key expectations of parents expanded on in the following pages are as follows:

1. Support the educational ethos and values of the School

Parents are expected to visibly support the educational ethos and values of the School, and role model responsible and safe behaviours for their children and others in the community to learn from.

2. Behave respectfully towards members of our community

Parents should behave respectfully at all times towards the School's staff (including employees, contractors and volunteers), students and other parents.

3. Use technology and social media appropriately

Parents are expected to be respectful in their communication with others, be mindful of privacy and safety in publishing information online, and ensure confidential information is not shared without permission.

4. Be a responsible visitor and participant

Parents must respect the School's risk-management procedures when visiting the School and attending school activities and events off-campus.

5. Raise grievances appropriately and productively

Parents should raise genuine grievances they may have about such matters in an appropriate, constructive and respectful forum.

Support the educational ethos and values of the school

Parents are expected to support the educational ethos and values of the School, model appropriate behaviours for their children to learn from, and work with the School as it educates and provides pastoral support to all students.

Parents can support the School and be positive role models by doing, for example, the following:

1. Comply with the School's codes of conduct, directions policies, procedures, rules and regulations, and ensure their children do the same.

2. Respect (and show to their children that they respect) that the School is inclusive and welcomes students from a variety of backgrounds, and with different needs.
3. Respond to School communications (e.g. by completing forms and providing permissions in a timely manner) when requested to do so by the School.
4. Encourage their children to actively participate in the life of the School, including in the classroom and the many sporting and extracurricular activities available (noting that some extracurricular activities will be compulsory).
5. Support the School's commitment to developing a student's initiative, independence and sense of responsibility for their own lives and actions.
6. Support the School's approach to student behavioral concerns, which can include a range of outcomes (including those which are educational, pastoral or disciplinary in nature).
7. Be responsive to concerns raised by the School about their own child, including by being cooperative, providing information, and attending meetings when required.
8. Raise grievances directly with the School, and in a timely manner.
9. Keep the School informed about a child's needs (including but not limited to their behavioural, educational, personal, and physical or mental health needs). This includes providing updated medical information, family developments and other like information as it becomes available. However, parents need to also appreciate that while the School will take into account any new information, and comply with its legal obligations, the School cannot necessarily accommodate every need.
10. Keep the School informed about a child's parenting arrangements, including any court orders that may be in place. However, parents should not involve the School in parenting disputes, or expect the School to act as the go-between for estranged parents.

11. Recognise the damage that gossip can do within a school community, and avoid unconstructive commentary (including criticism, uninformed rumour or speculation) with other parents or students, including on social media.

Parents are expected to be a role model for responsible and safe behaviours. This includes ensuring the health and safety of all members of our school community (including staff, students, parents and alumni) and the wider community. Parents are expected to ensure that other individuals involved in their child's life, such as other relatives and carers, also comply with this Code.

Behave respectfully towards members of our community

The School expects that parents will behave respectfully at all times towards other members of the school community. This applies not only to words used, but also to tone and body language, and similar expectations are embedded in the School's codes of conduct for staff and students.

“Respect” is intentionally a broad concept. The following is a non-exhaustive list of **behaviours that are not respectful**:

- Rude or insulting behaviour, including passive-aggressive, intimidating or derogatory language.
- Bullying, intimidation, discrimination, sexual harassment, victimisation and child abuse. Please note that in addition to being a breach of this Code, such behaviour may also be unlawful.
- Actual or threatened aggression (verbal or non-verbal) or violence.
- Behaviour that causes a risk to a person's health and wellbeing.
- Defamatory or disrespectful comments.
- Gossip, rumour, and innuendo.
- Raising one's voice, or using offensive language or actions, while communicating.
- Age-inappropriate language when communicating with or about children.
- Vexatious complaints.

Use technology and social media appropriately

The expectations set out in this Code can also apply to the way a parent uses technology and behaves online.

Parents must not use personal devices to photograph or record **within Early Learning Centre environments**, except as authorised by staff, and even then only in accordance with School policy.

In all other school environments, parents should:

- Respect a staff member's professional and personal boundaries, by not using their personal online presence to raise School matters (or otherwise engage in disrespectful behaviour).
- Parents should only photograph or record their own child at School events. While we recognise that other students may appear incidentally in the background of such images, parents must not deliberately focus on or photograph other students without express written permission from the School. Photos or recordings that include other students must not be published, shared, or distributed (including on social media) without prior consent from the School and the student's parent or guardian. Where a student is 15 years or older, the student's own consent must also be obtained. Students of any age have the right to refuse to be photographed or recorded, and this must be respected.
- Parents must not publish, share, or distribute any information, image, recording, or commentary that could bring the School, or any member of its community, into disrepute. This includes (but is not limited to) images of students in School uniform, or depictions of students, staff, or parents at School or School-related activities in a manner that is disrespectful, inappropriate, misleading, or harmful.
- Not communicate with students from another family outside of the School, including by email or on social media, without prior consent from that student's parent(s).
- Not discuss confidential or sensitive School matters, including in relation to grievances about a particular staff member or student, online.
- Obtain express permission to use the School's name or insignia in the title of any online website, forum or group, or printed or online publication. In addition, no suggestion should be made that any such platform or material is operated or sanctioned by the School.

Be a responsible visitor and participant

Parents must respect the School's risk-management procedures when visiting the School. Parents should immediately proceed to Reception upon arrival to sign in, and should only enter a classroom or other student environment when invited to do so by a staff member. This requirement does not apply when visiting the School only to:

- Attend an activity or event to which all members of the school community have been invited.
- Visit the School uniform shop.
- Drop-off or collect a child from School.

When visiting the School, or attending School activities and events, parents should model appropriate and respectful behaviours, and uphold the School's values. This includes:

- Demonstrating good sporting conduct and fair play when attending the School's art, drama and sporting events.
- Complying with applicable occupation, student and workplace health and safety and risk-management procedures.
- Complying with any reasonable directions given by the School's staff.
- Showing appropriate care and regard for the property of the School and others. Any damage should be promptly reported to the School.
- Dressing appropriately for the occasion.
- Not being under the influence of drugs or alcohol (and otherwise not engaging in the possession, sale or supply of the same at the School).
- The School may permit the responsible service and moderate consumption of alcohol at designated School functions, in accordance with School policy and licensing requirements. Parents must not attend School activities intoxicated, nor become intoxicated during School events. Parents are expected to remain responsible and to ensure their behaviour upholds the safety, wellbeing and dignity of all members of the School community.
- The School is a smoke-free and vape-free environment, and the use of tobacco or vaping devices on School premises or at School activities is not permitted under any circumstances.
- Behaving lawfully on School grounds whether at events hosted by or connected to the School, whether conducted on site or otherwise.
- Ensuring that physical contact with students is appropriate given the age of, and relationship with, the student.
- Respecting the School's property and the property of other members of the school community (including staff, students and parents).

When dropping off and picking up students from the School, parents are expected to ensure the health and safety of all members of our school community, as well as the wider community, at all times.

Parents must comply with all traffic rules and any School traffic management system in place. This includes adhering to applicable speed limits, observing all traffic signs, limiting

the use of car horns (unless indicating imminent danger), and parking appropriately and safely.

Raise grievances appropriately and productively

The School is committed to the education and wellbeing of each student. It is therefore critical that parents are able to raise genuine grievances they may have about such matters in an appropriate, constructive and respectful forum.

The School's grievance-management procedures are set out in [Grievance, Conflict and Complaint Resolution Policy](#), and [Grievance, Conflict and Complaint Resolution Procedure](#). This policy and procedure set out how concerns and grievances may be raised with the School; who they should be raised with; and how the School will deal with these in a respectful and timely manner.

Parents with grievances should consult the [Grievance, Conflict and Complaint Resolution Policy](#), and [Grievance, Conflict and Complaint Resolution Procedure](#). However, in general:

- Parents should not communicate with another student about an issue concerning their own child. In particular, parents should refrain from any attempt to discipline a student who is not their child, unless they are attempting to restrain a student from causing a risk to themselves or others.
- Parents should raise their grievances with their child's teacher in the first instance. More serious concerns or grievances, including where a parent is dissatisfied with a teacher's response to a grievance, may be raised with the appropriate member of the School (as set out in the policy).
- Parents should arrange a face-to-face meeting to discuss their grievances, rather than relying on email or other written communications.
- Parents should clearly identify their grievances, and what they would practically like to see happen. If there is more than one issue or problem, parents should write a list so that they are adequately prepared and then decide which issue or problem matters most.
- Parents should appreciate that while the School is committed to dealing with their grievances in a timely manner, it will not always be practicable for staff to provide an immediate acknowledgement or response (particularly where a concern or grievance is sent by email).
- Parents should respect that the School employs experienced educators and other professionals who are well-trained in making academic, disciplinary, extracurricular, pastoral and wellbeing decisions every day. Please understand that while the School will always take into account the interests of the parent's child, the School must

ultimately make decisions that take into account the interests of all students (and others who may be affected by the School's decisions).

- Parents should recognise that just as the School will seek to respect each student's privacy, the School will also respect the privacy of other members of the School community. This means there are limits to what information the School will share with a parent when issues arise. This does not mean that the School is not taking an issue or situation seriously, or hiding information from a parent.
- If a parent is not satisfied with the School's response to a grievance, a School policy may provide a parent with a right to request an internal review of the School's decision. Alternatively, an external body, court or tribunal may be able to deal with the issue. The School respects a parent's right to invoke any formal grievance-resolution procedures which may exist. However, parents who refuse to engage in constructive processes that may resolve their grievances, or who choose to publicly air their grievances about the School (and in particular about staff or students) on social media, are not welcome.

Consequences for breach of this code

The Principal will have absolute discretion in deciding how to best respond to concerns about a parent's compliance with the Code.

Where the Principal considers that a parent has breached this Code, the Principal may implement one or more of the following consequences (and not necessarily in any particular order):

- A request that the relevant conduct immediately cease.
- A written warning.
- A parent (or another relevant person) being banned from the School grounds, either for a particular period of time or permanently.
- A parent (or another relevant person) being excluded from School activities or events.
- A requirement that a parent (or another relevant person) only communicate with a nominated School representative.
- Termination of the enrolment of a parent's child(s).

Staff and volunteers are empowered to take steps to protect their own health and wellbeing. If they feel that a parent is being inappropriate, they are encouraged to indicate this and ask that it stop. If it does not, or if a staff member feels that a parent's actions are posing a risk to their or someone else's health and wellbeing, they are empowered to remove themselves from the situation. This may include immediately concluding a meeting or phone call, or

demanding that a parent immediately leave the School grounds (or a School activity or event).
